Providing Services

KPMG firms operate in 146 countries and territories, collectively employing approximately 227,000 people, serving the needs of business, governments, public-sector agencies, not-for-profits and through KPMG firms' audit and assurance practices, the capital markets. Each KPMG firm is a legally distinct and separate entity and describes itself as such. KPMG International Limited is a private English company limited by guarantee. KPMG International Limited and its related entities do not provide services to clients.

KPMG Japan is committed to providing high-quality and value-added services to meet our clients' complex business needs. We achieve this through the seamless collaboration and enhancement of our professionals' expertise and knowledge as well as our Africa-wide and global network. With over 7,500 professionals and 30 practices across Africa, we provide a variety of services such as Audit (both under standard of each county and IFRS and assurance), Tax (domestic and international tax) and Advisory (management consulting and deal advisory). We have had a Japanese CPA in South Africa since 2012 and have supported Japanese companies' investment and business development ambitions through high-quality services.

Project Achievement/Technical Expertise

KPMG Japan supports a wide range of corporate activities to meet clients' needs through an integrated structure providing Audit, Tax and Advisory services.

KPMG AZSA LLC offers professional services, including audit, assurance, IFRS advisory, accounting advisory, financial advisory, IT advisory, and middle market development. In addition, we deliver expert services tailored to the sector-specific needs of the financial, information / telecommunication / media, retail, energy, manufacturing, and public sectors.	KPMG Tax Corporation's strength is its ability to offer services for a broad range of clients' tax needs. KPMG in Japan was established when KPMG opened a network office in 1954. Since then the tax practice has strived to continually provide our clients with consistent high quality service that combines among the best of our local skills, knowledge and experience with the resources of KPMG International's global network.	KPMG AZSA Sustainability provides third-party assurance services for companies to raise the credibility of their non-financial information. We assist companies' pursuit of sustainability by supporting corporate performance and risk control in the sustainability field as well as enhancement of non-financial disclosures.
KPMG Consulting works with our clients to navigate these challenges and maximize the opportunities presented in the market. Working with business leaders we understand both the global and local landscape and support companies in embracing enterprise change across people, process and technology to build sustainable and profitable growth. Our experience in business and technology transformation and risk management positions us as a true end-to-end partners for businesses as they grow and adapt, helping companies realize their true value and potential in the market.	KPMG Ignition Tokyo has gathered together not only experts in cutting-edge technologies of the Cloud, AI, Blockchain and IoT, but also experts in all digital fields including data science, data visualization, cloud architecture and system security, from Japan and overseas. Our team of experts work on the secure management of a huge amount of complex data, development and operation of platforms using Agile and DevOps approaches, analysis of such data for reflection in making management judgments, and visualization of the analyzed data for easy understanding. We will integrate such cutting-edge digital technologies with the expertise KPMG Japan has accumulated to date and liaise with KPMG Global to build a common platform and solutions.	KPMG FAS helps our clients develop and execute management strategies and transformational initiatives such as M&A and business restructuring, while managing potential corporate fraud risks and implementing practical global governance structures. We excel in supporting clients successfully deliver these critical initiatives that shape their businesses over the long term, helping them achieve sustainable growth.
