Providing Services

Our main business fields are General Contracting, Planning, Designing and Execution of Construction, Urban, Suburban and Marine Development, Engineering etc.

We provide satisfaction to our client through our construction work of Buildings, Structures and Civil Engineering with our high construction skills and sophisticated design.

Project Achievement/Technical Expertise

The Zenitaka Corporation, with its history over 300 years, is the one of the leading General Contractors in Japan. "Ozaki Branch of Hongwanji", Buddhist wooden temple, completed 1705 built by The Zenitaka Corporation is still surviving in a suburb of Osaka. Since early 20th century, The Zenitaka Corporation has been very famous for Bridge contractor in Civil Engineering Field in Japan. We have built many bridges nationwide. In the new century, we constructed Source of the Nile Bridge in Uganda, which will be the First Cable Stayed Bridge in Eastern Africa.
