Providing Services

We are a maker of sensors for monitoring of flood warning in river, detection of sediment disaster in mountainous area etc. Our major clients are national and municipal governments. The applicable fields of our sensors are water resources management, irrigation, flood prevention/mitigation, hydropower, water control system and landslide management.

We have been successful for more than 50 years in sales, installation and maintenance services. The market share in Japan is 70%. We also have many delivery records in Africa (Egypt, Sudan, Kenya) and Asia (Philippines, Indonesia, Vietnam, Myanmar, etc.). We hope that we contribute to enhancement of water resources management and disaster prevention/mitigation in Africa.

Project Achievement/Technical Expertise

Our major project records:

AFRICA: Egypt, Sudan, Kenya

ASIA: Indonesia, Vietnam, Myanmar, Philippines, Lao, Malaysia, South Korea, Singapore, Thailand, Taiwan, Sri Lanka, Nepal
